Would you like to contribute to science?

The **Aging and Cognition Lab** at Brandeis University and the Martinos Center at Massachusetts General Hospital seeks **research participants** to volunteer in research that utilizes fMRI, a technique used to measure brain activity.

You must:

- be between the ages of 18-34 or 65-90
- speak English as your primary language, learned before the age of 5
- be right-handed
- have normal or corrected vision
- be neurologically normal and healthy
- have completed at least a 10th grade education

Volunteers completing fMRI studies receive up to $25/hour.

If you are interested in participating or have additional questions, please contact us via e-mail jshih@brandeis.edu or phone 781-736-3353.
