

Institutional Commitment (3 pages)

Describe the institutional infrastructure available to support the instrumentation, including space to house the instrument and a site for sample preparation, if applicable. Confirm the institutional support toward the maintenance and operation of the instrument. In particular, confirm the institutional commitment to the financial plan for maintenance and operations for five years from the installation date of the instrument or for its effective lifetime. Describe institutional support for personnel. The timeline of institutional support should be consistent with the expected usable lifetime of the requested type of instrument.
